1. to 5. Bud: Try as I may, it is not possible to fill in what is not said in the attached. Accordingly, I do not feel the presentation is adequate for top management to make a sound decision, nor do I feel the paper meets the requirements set out in the DDCI's memo of 23 Dec 63 on R&D approvals. In view of our conversation on the [REDACTED] paper and your desire to be kept advised and involved in these matters, I'd appreciate an early opportunity to go over my thoughts on this paper with you and George Miller. This might also afford the opportunity to take [REDACTED] and me thru your reprogramming conclusions resulting from the recent review you indicated you had made of each program in DD/S&T.
